RE: Mikhail Rataev

To Whom It May Concern:

Mr. Mikhail Rataev was a software engineer with our software engineering team in Moscow, working on our movie content delivery systems. During his tenure with my software engineering team, he performed his duties as a software engineer to a very high standard. He is well-respected by his peers in Moscow and US; not only for his technical abilities, but also for his work ethic and professionalism.

Mikhail demonstrated a very thorough understanding of our complex SOA-based product, .Net stack and Microsoft technologies. His critical thinking and creative problem-solving skills enabled him to make significant contributions to our success. I highly recommend Mikhail Rataev for similar roles and opportunities.

Please feel free to contact me, should you need any additional details.

Regards,
